## WELCOME

### WELCOME TO SAN DIEGO!

Greetings Political Scientists and fellow members of the nerd community,

On behalf of the University of San Diego and the WPSA, we welcome you to San Diego, America's Finest City. In doing so, we want to acknowledge that the land on which we gather is the traditional and unceded territory of the Kumeyaay Nation. We want to pay respect to the citizens of the Kumeyaay Nation, both past and present, and their continuing relationship to their ancestral lands.

As residents of San Diego, we believe there is no better place to gather as scholars of politics to interrogate the challenges facing our world. We are justifiably proud of our beautiful city, and no matter what San Francisco tries to tell you, we remain California's second-largest city and the eighth-largest city in the United States.

While in town, we encourage scholars of all stripes to take in all the enriching intellectual fodder the city has to offer. Befitting a conference on the politics of climate change, San Diego boasts a wealth of natural wonders to behold. Whether it's the breathtaking beaches to the west, the arid deserts to the east, or the myriad of hiking trails at every turn, there are enough ecological marvels to satisfy any wandering soul. Additionally, as the second-largest transborder agglomeration in the U.S., scholars of borders, migration, and comparative politics will certainly have plenty to discover while visiting our fair city. San Diego is a culturally rich city that celebrates its diverse history and inhabitants, from the Japanese Friendship Garden in Balboa Park to the San Diego African American Museum of Fine Art to the murals of Chicano Park in Barrio Logan. Curious scholars of the Theological-Political Problem can marvel at a battle between Church Fathers and Communist Agents at Petco Park (which is to say, the Padres are hosting the Reds this weekend). Students of IR and Military History should be sure to take in the sights at Navy Pier, including the USS Midway Museum. Oh, and the rumors are true: San Diego has the best craft beer in the U.S.

Those looking for active fun and adventure will find opportunities aplenty. The sporting life in San Diego is vibrant and diverse, notwithstanding the less than amicable divorce between our city and a certain electricity-oriented professional football club. After your panel, you can catch a wave, rent a bicycle, or just stroll around our many beautiful beaches. Balboa Park offers endless hours of outdoor fun as well as world-class museums, including the Natural History Museum, the Museum of Man, and the San Diego Art Institute. And of course, there's Sea World and our world-famous Zoo, which are likely to be especially attractive to those traveling with children.

However you decide to take in the city, we hope its wonders will enrich your experience at the conference panels, meetings, and receptions to provide the best kind of intellectual provocation and inspiration. Enjoy the conference and don't be a stranger.

Cory Charles Gooding, University of San Diego  
Timothy Wyman McCarty, University of San Diego

## SPECIAL ACKNOWLEDGMENTS

Welcome to the 2019 WPSA conference! In panels, roundtables, and poster sessions, we will gather to share our research findings and theoretical reflections. This year's meeting also includes workshops and mini-conferences on a wide variety of intellectual, professional, and pedagogical topics. We are honored to host keynote lectures by University of California president Janet Napolitano (formerly governor of Arizona and secretary of the U.S. Department of Homeland Security) and APSA president Rogers Smith.

The theme of this year's conference is "The Politics of Climate Change." According to the United Nations' Intergovernmental Panel on Climate Change, annual net carbon emissions must be reduced by 45% by 2030 and brought down to zero by 2050 if we are to avoid a catastrophic rise in the average world temperature. Yet the world has come nowhere close to meeting the challenge. As scholars and educators, political scientists can illuminate the causes of and potential responses and solutions to the crisis. We hope the conference will inspire new conversations and initiatives on this topic.

This year's program features many sessions specifically devoted to climate change. Among other sessions, I might call your attention to "Climate Change and Sustainability in the Political Science Classroom" (Thursday, 10 am), "Teaching Climate Change Radically" (Thursday, 3:15 pm), "Political Science and Climate Change: The State of the Discipline" (Friday, 10 am), and "Taking it to the Beach: Strategies for Engaging the Public on Climate Change" (Friday, 3:15 pm). Climate change will be the focus of University of California President Napolitano's remarks on Thursday at noon.

It is a pleasure to thank those who made this conference possible. Richard Clucas and Elsa Favila, executive director and associate director of WPSA, tackle a host of challenges, from the small to the very large, and give daily proof of their superhuman abilities. The section chairs took on the key responsibility of organizing panels, roundtables, and poster sessions. WPSA officers, council members, and committee members oversee governance, promote best practices, guide policy, recognize excellence in scholarship and service, and handle other tasks necessary for maintaining a healthy and productive professional association. The local arrangements chairs, Cory Gooding and Tim McCarty of the University of San Diego, have coordinated with local institutions and provided great suggestions for what to do in San Diego. Many thanks to our student volunteers. All these contributions demand time and thoughtful attention, and I am most grateful.

Our thanks to the College of Arts and Sciences at the University of San Diego for its financial support, and to the Center on Global Justice of UC San Diego for co-sponsoring President Napolitano's Pi Sigma Alpha lecture. I thank those who advised me on matters relating to the conference theme, including Gwen Arnold,

# ANTI-HARASSMENT POLICY

## 1. Purpose

The Western Political Science Association was created for the purposes of promoting the study and teaching of government and politics, to foster research, and to facilitate the discussion of public affairs. The Association promotes these purposes in the spirit of free inquiry and free expression. The primary event in which WPSA members gather is at the Association's annual conference. Harassment of colleagues, students, or other participants at the conference, or at any other WPSA-sponsored event or forum, undermines the principle of equity at the heart of the Association's principles and is inconsistent with the principles of free inquiry and free expression. Consequently, harassment is considered by the WPSA to be a serious form of professional misconduct.

The WPSA is committed to providing a safe and welcoming conference environment for all participants, regardless of race, gender, sexual orientation, gender identity, ability, ethnicity, socioeconomic status, age, or religion.

"Participant" in this policy refers to anyone present at or directly involved in WPSA meetings, including staff, contractors, vendors, exhibitors, venue staff, WPSA members, and all other attendees.

## 2. Expected Behavior

All participants at WPSA meetings are expected to abide by this Anti-Harassment Policy in all meeting venues including ancillary events and official and unofficial social gatherings.

- Abide by the norms of professional respect that are necessary to promote the conditions for free academic interchange;
- If you witness potential harm to a conference participant, be proactive in helping to mitigate or avoid that harm;
- Alert conference or security personnel if you see a situation in which someone might be in imminent physical danger.

## 3. Unacceptable Behavior

Unacceptable behaviors include:

- persistent and unwelcome solicitation of emotional or physical intimacy;
- persistent and unwelcome solicitation of emotional or physical intimacy accompanied by real or implied threat of professional harm;
- intimidating, harassing, abusive, derogatory, or demeaning speech or actions by any participant in an WPSA meeting and/or at any related event;
- prejudicial actions or comments related to race, gender, sexual orientation, religion, ability, ethnicity, socioeconomic status, age, or religion that coerce others, foment broad hostility, or otherwise undermine professional equity or the principles of free academic exchange;
- deliberate intimidation, stalking or following;
- harassing photography or recording;
- sustained disruption of talks or other events;
- physical assault (including unwelcome touch or groping);
- real or implied threat of physical harm.

### **Theme: The Boundaries of Belonging**

Belonging, a sense or feeling that you are an important member of a group, or the lack thereof, is a fundamental component of political engagement. Attitudes and behavior of politicians and institutions shape the extent to which individuals and groups feel part of the larger whole. Unquestionably, the rhetoric and policies of the Trump administration have exerted pressure on the ways people, groups, and nations feel about their place in the U.S.; this has also led other nations to re-examine their relationship with the U.S. government. Some have argued that while the U.S. president pushes to build a physical wall to delineate clear boundaries, he is also building a figurative wall (or series of walls) in society. Others argue that Trump's approach provides much-needed clarity about who belongs and who does not. Division abounds.

While there is nothing new about political disagreement and division or about defining who does or does not belong, some say the depth and breadth of this change in our current context is unique. Hate groups are on the rise, as are voices that are anti-immigrant, anti-intellectual, and anti-government. These trends are political in and of themselves, and they have political consequences. At the same time, these challenges do not appear to be a concern for some who posit we live in a post-racial society, or that immigration reform and walls are

## CALL FOR PAPERS – 2020 ANNUAL MEETING

about the economic health of the nation – not race and ethnicity. How can we address and reconcile these two different worldviews in our politics?

Social scientists -- political scientists specifically -- have made important contributions to our understanding of political incorporation and alienation, yet the attention devoted by the field as a whole remains inadequate, and the subject often receives limited coverage in undergraduate and graduate curricula. The question of belonging engages all subfields of our discipline.

We invite proposals that investigate and expand our understanding of the politics of belonging – why have we seen this question about belonging rise at this particular time in our collective history? Who decides who belongs and what are the consequences of those decisions? What is gained or what might be achieved when the question of belonging is engaged?

**Please note:** All participants in the program are required to preregister for the 2020 WPSA meeting by December 31, 2019.

**Workshop  
Organizer:** Owen, Diana, Georgetown University

**Facilitators:** Gallo, Maria, Center for Civic Education  
Hartzell, Kathryn, Georgetown University  
Lee, Jenny, Georgetown University  
Owen, Diana, Georgetown University

**Description:** The need to improve civic education in the nation's middle and high schools is especially pressing for high-need students—

students living in poverty, minority students, English language learners, and special needs students. Instructing high-need students, who have fewer civic learning opportunities and access to resources than more advantaged students, presents unique challenges to educators. Thus, the goals of the proposed workshop are twofold: 1) to demonstrate instructional pedagogies that are effective in providing civic education to high need students; and 2) to present research findings on the effectiveness of these instructional strategies in imparting civic knowledge, disposition, and skills to students.

The workshop will focus on lessons learned from the James Madison Legacy Project (JMLP), a program of the Center for Civic Education that provides professional development to teachers of high-need middle and high school students based on the *We the People: The Citizen and the Constitution*. The goals of the JMLP are to improve teachers' civics, social studies, and American government content knowledge and to enhance their classroom pedagogy, and results from JMLP participation show that the civic literacy of students in participating teachers' classes increased markedly. The JMLP is funded by a Supporting Effective Educator Development (SEED) grant from the U.S. Department of Education.

The portion of the workshop that will address effective pedagogies for instructing high-needs students will be presented by Maria Gallo who was responsible for designing and implementing the JMLP teacher professional development program. The research study will be reported by Dr. Diana Owen with Kathryn Hartzell and Jenny Lee, graduate student members of the JMLP Research Team at Georgetown University.

#### **PANEL 36.04     Mentoring Undergraduate Researchers**

**Location:** Cortez Hill C

**Facilitator:** Becker, Megan, University of Southern California

**Description:** Looking to get undergraduates involved in your research, but concerned about balancing the needs of your students with your other professional obligations? Learn how to organize collaborative undergraduate research experiences, which can be applied by faculty from all areas of Political Science. We will cover the 'why,' 'what,' and 'how' of starting your own research team. We will discuss a pedagogical approach, the Stewardship Model, which combines five elements: 1) targeted recruitment of underserved students; 2) technical training; 3) applied research experience; 4) multi-level mentorship; and 5) a carefully constructed, inclusive learning community. These five elements will serve as the thematic foundations of the workshop.

#### **Attendees will...**

1) brainstorm ideas for how they might integrate collaborative teams of UGs in their own research projects

- 2) review useful policies for recruitment, student training, organizing collaboration, and maintaining mentoring relationships
- 3) discuss strategies for evaluation
- 4) create a community of faculty in Political Science who are interested in UG research labs and can share ideas and best practices on an ongoing basis

**PANEL 14.20      Philosophy for Children Workshop**

**Location:** Mission Beach C

**Chair:** Katz, Claire, Texas A&M University

**Description:** The aim of Philosophy for Children (P4C) pedagogy is to develop a community of philosophical inquiry. A concept emerging out of the philosophies of John Dewey and Charles Peirce, the community of inquiry emphasizes that knowledge is both socially embedded and contingent, empowering students to investigate conceptual problems collaboratively. With its focus on teaching a style of inquiry rather than specific content, the pedagogy of P4C can be applied in a number of educational spaces beyond the pre-college philosophy classroom, in particular, in the university classroom. Looking for new pedagogies to use in their classrooms, faculty and graduate students have turned to P4C in order to develop robust critical and creative thinking in addition to forming a collaborative learning community. This workshop will introduce the pedagogical framework of P4C while also providing an opportunity to practice the skills required to transform their own classrooms into a community of inquiry.

### **FOOD & DRINK**

#### **Restaurants**

There are a wealth of excellent dining and nightlife options in San Diego, both nearby the conference hotel, and throughout the city for those interested in venturing out. The Department of Political Science and International Relations at the University of San Diego has prepared a list of recommended local restaurants, all a walk or short cab ride from the hotel. The list is constructed alphabetically by neighborhood and is available on the conference website.

The nearest neighborhoods to the conference hotel are Downtown/Gasligh (a tourist-centric area with lots of dining and nightlife) and Little Italy (which has great food, fewer tourists, and much less nightlife). For those willing to venture out further, San Diego has hundreds of other great restaurants in nearby neighborhoods, including La Jolla, Hillcrest, South Park, North Park, and Barrio Logan—do not hesitate to explore the city on your own.

#### **Pub Crawl**

There are more than one hundred small craft breweries and independent brewpubs in San Diego county. San Diego was a pioneer of craft brewing, and is probably most famous for developing what most people now call Double IPA or West Coast IPA. Among the most highly regarded are AleSmith, Ballast Point, Coronado Brewing, Green Flash, Modern Times, Pizza Port, Stone, and Societe. The San Diego Brewers Guild (<https://www.sdbeer.com/>) is a great resource for navigating the beer scene, including its very helpful SD Beer App.

### **ENTERTAINMENT**

#### **Walking & Trolley Tours**

Explore San Diego's eight districts on foot with Walkabout International, a non-profit educational organization that offers more than 100 free guided walking tours of San Diego's neighborhoods every month (<http://www.walkabout-int.org/wcal.html>), or check out Old Town Trolley Tours, which takes visitors through areas including Old Town, Gaslamp Quarter, Embarcadero, Balboa Park, Coronado and more. You can stay on the trolley for the full two-hour tour get off at any one of the 11 stops, strike out on your own, and just return to the stop when you're ready to hop back on. <http://www.trolleytours.com/>

#### **Museums**

San Diego has a wealth of museums and other enriching attractions. In particular, Balboa Park, often referred to as, "The Jewel of San Diego" is home to 17+ museums, 19+gardens, and 1200 acres to explore--this is a must see. The USS Midway Museum at the Navy Pier is a favorite for families and anyone interested in Military History. Also highly recommended is the the Museum of Contemporary Art San Diego, either its La Jolla location or the Downtown location, just half a mile from the conference hotel. If you are in for some travel, you might want to check out the California Surf Museum up in Oceanside to learn

## SAN DIEGO DINING AND LOCAL ATTRACTIONS GUIDE

about how the special interest sport transformed the Southern California lifestyle, and continues to shape and influence the region's culture today.

### Beaches

San Diego has remarkable beaches, popular among people of all ages for the available activities, parks, and sheer beauty. Nearby beaches include Mission Beach, Pacific Beach, Coronado Beach, Moonlight Beach, Ocean Beach, and La Jolla Shores. Note: Winter storms sometimes bring “high surf warnings.” Do take heed, as strong, high surf and rip currents can be dangerous on the beach or in the water. Also, after high surf or rain, beaches sometimes experience bacterial contamination. Before going in the water, it is best to check the website maintained by San Diego Coastkeeper, or their app, the “Waterkeeper Swim Guide”.

### Family Activities

San Diego is a wonderful place for family fun. In addition to the beaches, parks, and other assorted outdoor marvels, there are activities and theme parks aplenty.

To satisfy the inveterate pedagogue within each of us, there are plenty of options for enriching activities. The marvelous Birch Aquarium at Scripps strives to provide ocean science education in addition to the displays of aquatic life (<http://aquarium.ucsd.edu>) The New Children's Museum near the Gaslamp Quarter and across from the San Diego Convention Center offers a hands-on experience for kids from toddler-aged to elementary school (<http://www.thinkplaycreate.org/>). And the Fleet Center science museum in Balboa Park offers science exhibitions aimed at upper-elementary aged children. Upstairs, there is also an interactive playroom especially for kids five and under (<http://www.rhfleet.org>)

For more traditional tourist fare, the San Diego Zoo is a world-famous 100 Acre, 3,500+ animal zoo, which is also a non-profit with a mission statement of saving species world wide. The hidden, fantastic partner to the zoo is San Diego Safari Park, which boasts of elephants, giraffes, and cheetahs who roam in large enclosures on a simulated savannah on hundreds of acres in northeastern San Diego. Sea World San Diego is the first and still largest of the three Sea World Parks in the U.S.. To the north is Legoland, a 128 Acre park meant to inspire creativity and play (& the purchase of many plastic bricks). And yes, there is also Disneyland.

### Shopping

In addition to local shops and markets throughout the city, you may want to check out: the Gaslamp Garage to find all the perfect souvenirs; Seaport Village, with 50 unique (touristy) shops and 17 dining opportunities; the Westfield Horton Plaza, a large 5 floor, 6 and a half block indoor shopping center in downtown; or Kobey's Swap Meet, which is the largest outdoor market in San Diego since 1976 (the first meet had 13 vendors and now has over 800).

### Shows

There are over 150 performing arts venues in San Diego County. Some of the "destination venues" famous in San Diego include the Old Globe, Balboa Theatre, San Diego Civic Theatre, National Comedy Theatre, Spreckles Theatre, the House of Blues and The Casbah.

### Special Events & Attractions

Check out <http://www.sandiego.org/what-to-do/> if you're looking for guided kayak, hiking, biking, and other outdoor recreational activities.

If you like boats, there are plenty of opportunities to satisfy the Ishmael within. Hornblower Cruises & Events offers Dinner Cruises, Whale & Dolphin Watching, Harbor Cruises, & Sea Lion Adventures; San Diego Sailing Tours offers Morning Sail on the San Diego Bay; and there is the always popular Sunday Champagne Brunch Cruise by Flagship Cruises & Events.

For those more committed to staying on dry land, you can try the Gaslamp Architectural Tour by the Gaslamp Museum at the Davis-Horton House; those who prefer not to take the term "bar crawl" too literally may enjoy the Beer Train Trolley Tour; and fans of libations who aren't into beer might enjoy the San Diego Wine Country Chauffeured Vineyard Tour or Winery Train Tour.

### Day Trips

*Traveling to Los Angeles & points north:* The LA area is about a 1 ½ hour drive at the best of times, however, travel time can vary greatly by day and time. Southern California traffic has a bad reputation for a reason. The train ride takes just under 3 hours and prices range from \$35-\$70. Visit <https://tickets.amtrak.com/itd/amtrak> to plan your trip.

*Traveling to Tijuana:* Downtown San Diego is just a short drive from Tijuana (about 20-30 minutes), the largest and most dynamic Mexican city on the border. Home to over 1.3 million inhabitants, and reputed to be the "world's most visited city," Tijuana has much to offer tourists interested in shopping, traditional and innovative cuisine, and nightlife. For those with more than a day to spare, Tijuana also provides a convenient point of access to the incredible beaches, deserts, and natural areas throughout the rest of Baja California.
